loaded with information and illustrations on standard and advanced climbing techniques tools of the trade rigging throwline installation as well as a complete section on knots and hitches for beginners or professional arborists in this stunning follow up to brian freeman s remarkable debut novel immoral detective jonathan stride discovers that there are only two ways to go in las vegas you can hit the jackpot or you can get stripped they looked like isolated cases a hit and run and a celebrity murdered during a fling with a prostitute no one could ever imagine they d be linked to a brutal crime in las vegas s steamy past and that the race against the clock to corner a determined serial killer would stir up secrets long thought buried with the dead as detectives jonathan stride and serena dial are called separately to investigate they have no idea what they re stepping into a world where desperate ambition rules and loyalties know no bounds and where their own uncharted emotions and sexual desires will reach an explosive conclusion shocking twisted with edge of your seat suspense stripped pushes the limits of its heroes and keeps the reader turning ever page until the last plot twist i have found this book to be a very useful classroom text as well as a great linux resource it teaches linux using a ground up approach that gives students the chance to progress with their skills and grow into the linux world i have often pointed to this book when asked to recommend a solid linux reference eric hartwell chair school of information technology itt technical institute the 1 fedora and rhel resource a tutorial and on the job reference master linux administration and security using gui based tools the command line and perl scripts set up key internet servers step by step including samba apache sendmail dns ldap ftp and more master all the techniques you need to succeed with fedora and red hat enterprise linux in this book one of the world s leading linux experts brings together all the knowledge you need to master fedora or red hat enterprise linux and succeed with it in the real world best selling author mark sobell explains linux clearly and effectively focusing on skills you ll actually use as a user programmer or administrator now an even more versatile learning resource this edition adds skill objectives at the beginning of each chapter sobell assumes no prior linux knowledge he starts at the beginning and walks you through every topic and task that matters using easy to understand examples step by step you ll learn how to install and configure linux navigate its graphical user interface provide file print sharing configure network servers secure linux desktops and networks work with the command line administer linux efficiently and even automate administration with perl scripts mark sobell has taught hundreds of thousands of linux and unix professionals he knows every linux nook and cranny and he never forgets what it s like to be new to linux whatever you want to do with linux now or in the future you ll find it here compared with the other linux books out there a practical guide to fedora and red hat enterprise linux sixth edition delivers complete up to the minute coverage of fedora 15 and rhel 6 state of the art security techniques including up to date firewall setup techniques using system config firewall and iptables and a full chapter on openssh ssh coverage of crucial topics such as using su and sudo and working with the new systemd init daemon comprehensive coverage of the command line and key system gui tools more practical coverage of file sharing using samba nfs and ftp superior coverage of automating administration with perl more usable realistic coverage of internet server configuration including apache sendmail nfsv4 dns bind and ldap plus new coverage of ipv6 more and better coverage of system network administration tasks including network monitoring with cacti deeper coverage of essential administration tasks from managing users to cups printing configuring lans to building a kernel complete instructions on keeping linux systems up to date using yum and much more including a 500 term glossary and comprehensive indexes this wide ranging reference book covers almost 3000 years offering enthralling insights into the art and architecture myths and legends and everyday life of mesoamerica stories of sun gods and blood sacrifice of pyramids and temples and of the fabulous treasuries filled with gold have fascinated many generations the world heritage sites of historic mexico city and tenochtitlan teotihuacan chichen itza tikal and monte alban are examined in detail this unrivalled volume is not only a perfect introduction to the history of these lost civilizations but also a stunning visual record of a unique period that has helped to shape our world popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better in this remarkable book the renowned mexican healer sergio magaña reveals the fascinating secrets of the ancient toltec tradition closed to outsiders until now this rich spiritual tradition is over 5 000 years old the original holders of this secret knowledge the chichimeca were considered to be masters with a deep understanding of the dream state and a working knowledge of how our perceptions form our reality as well as the capacity to influence matter the toltec secret reveals the incredibly powerful rituals and symbols that will enable you to become lucid in your dreams create your life through your dreams like the toltecs did send healing to others while in the dreaming state communicate with your ancestors develop your intuition and use toltec techniques to see the aura heal and rejuvenate your body by connecting with the energy of the sun use the mysterious obsidian mirror for healing yourself and others practise the powerful dances of the toltecs and mexihcas mummies cannibals and vampires charts in vivid detail the largely forgotten history of european corpse medicine which saw kings ladies gentlemen priests and scientists prescribe swallow or wear human blood flesh bone fat brains and skin in an attempt to heal themselves of epilepsy bruising wounds sores plague cancer gout and depression in this comprehensive and accessible text richard sugg shows that far from being a medieval therapy corpse medicine was at its height during the social and scientific revolutions of early modern britain surviving well into the eighteenth century and amongst the poor lingering stubbornly on into the time of queen victoria ranging from the execution scaffolds of germany and scandinavia through the courts and laboratories of italy france and britain to the battlefields of holland and ireland and on to the tribal man eating of the americas mummies cannibals and vampires argues that the real cannibals were in fact the europeans picking our way through the bloodstained shadows of this remarkable secret history we encounter medicine cut from bodies living and dead sacks of human fat harvested after a gun battle gloves made of human skin and the first mummy to appear on the london stage lit by the uncanny glow of a lamp filled with human blood this second edition includes new material on exo cannibalism skull medicine the blood drinking of scandinavian executions victorian corpse stroking and the magical powers of candles made from human fat in our quest to understand the strange paradox of routine christian cannibalism we move from the catholic vampirism of the eucharist through the routine filth and discomfort of early modern bodies and in to the potent numinous source of corpse medicine s ultimate power the human soul itself now accompanied by a companion website with supplementary articles interviews with the author related images summaries of key topics and a glossary the second edition of mummies cannibals and vampires is an essential read for anyone interested in the history of medicine early modern history and the darker hidden past of european christendom what corporations fear most are consumers who ask questions naomi klein offers us the arguments with which to take on the superbrands billy bragg from the bookjacket the cmc rope rescue technician manual is the standard text for many fire departments rescue teams and training programs across the country the sixth edition reflects the latest advances in technology equipment and procedures available to rescue professionals its concise style clearly sequences and describes tips you ll be an urban art aficionado in no time pcmag com is a leading authority on technology delivering labs based independent reviews of the latest products and services our expert industry analysis and practical solutions help you make better buying decisions and get more from technology for more than 40 years computerworld has been the leading source of technology news and information for it influencers worldwide computerworld s award winning site computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global it media network describes daily life in the aztec world including coverage of geography foods trades arts games wars political systems class structure religious practices trading networks writings architecture and science in the alternate universe of this glitteringly surreal first novel the aztecs rule having conquered the european invaders zenzontli keeper of the house of darkness is visited by visions of a parallel world run by the europeans where consumerism reigns supreme aztecs armed with automatic weapons totemic powers and blood sacrifice conquer and colonize 1940s europe as ghosts of the world wars emerge to haunt contemporary los angeles atomik aztex is a hilarious read a potent concoction with influences from graphic novels along with ishmael reed s mumbo jumbo the paranoia of philip k dick and william burroughs and an outrageous cyber aztlán mix reminiscent of guillermo gómez peña sesshu foster is the author of the critically acclaimed city terrace field manual six months after its american introduction in 1985 the yugo was a punch line within a year it was a staple of late night comedy by 2000 npr s car talk declared it the worst car of the millennium and for most americans that s where the story begins and ends hardly the short unhappy life of the car the men who built it the men who imported it and the decade that embraced and discarded it is rollicking and astounding and one of the greatest untold business cum morality tales of the 1980s mix one rabid entrepreneur several thousand good communists a willing u s state department the shortsighted detroit auto industry and improvident bankers shake vigorously and you ve got the yugo the rise and fall of the worst car in history brilliantly re creating the amazing confluence of events that produced the yugo yugoslav expert jason vuic uproariously tells the story of the car that became an international joke the american ceo who happens upon a yugo right when his company needs to find a new import or go under a state department eager to aid yugoslavia s nonaligned communist government zastava automobiles which overhauls its factory to produce an american ready yugo in six months and a hole left by detroit in the cheap subcompact market that creates a race to the bottom that leaves the yugo at the bottom with glorious photography and sharp writing never stop driving presents the case for the mental and social benefits of driving and engaging with automobiles it also shows you from dreaming about a car to living with it how to jump in and get the most from your machine there s never been a better time to go for a drive as a nation we are chronically overstressed overworked and not sleeping enough worse yet our digital devices are taking ever increasing chunks of what remaining free time we do have activities that force us to engage with ourselves and the environment around us are needed more than ever might i suggest a spin in a four wheeled escape pod the car the act of driving repairing maintaining drives out distraction and demands we be present making the car a pursuit invites not just the freedom of the road but the potential to connect with thousands of like minded individuals as well as the pleasure of simply caring for the machine further there s the thrill of commanding an object that represents a high point of human ingenuity and design cars invite passion the first step is embracing the itch and acting on it learn how to choose your perfect weekend car hunt for it and make the deal then find peace in the wrenches with tips on taking the plunge into maintaining your ride including how your car can be an opportunity to tear your kids away from their screens and strengthen your bond with them next explore the joy of driving from scenic byways to taking your car to its performance limit you ll also tour the various highlights of the driving life like how to become an automotive archaeologist the possibilities for those short on cash but high for adventure the car as a social gathering point and what the future with autonomous cars means for those who love to drive never stop driving shines some light on why we find these machines so captivating offering some inspiration and validation and finally inviting those who are curious but haven t made the leap to get in the car let s roll the admission test series prepares students for entrance examinations into college graduate and professional school as well as candidates for professional certification and licensure the pharmacy technician certification exam ptce passbook r prepares you by sharpening the skills and abilities necessary to succeed on your upcoming entrance exam it provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam including but not limited to pharmacy law and regulations medication safety inventory management quality assurance pharmacology and more popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that
